1. Product Overview

1.1 Introduction

Cervoz Industrial Half Slim Embedded Module T380 family is a Solid State Disk product that is in compliance with the SATA III standards. The device design is based on the 7pin for data segment and 15pin for power segment standards. The Half Slim Embedded Module T380 family fits in any 7+15 SATA sockets on a motherboard; it can be used for both booting or storage purposes.

T380 family uses SSD grade quality 3D NAND flash memory from the industry leading manufacturer Micron. Cervoz's firmware builds in a powerful ECC algorithm call Low-Density Parity Check (LDPC) decoding to improve data reliability. This product includes various capacities to choose from.

T380 family offers outstanding performance and reliability; the product family is a good cost-effective solution for semi-industrial and high-capacity storage applications.
